Detailed Action

Response to Amendment

1. Applicant's arguments filed on 12/20/2004 regarding claims 1-19 have been fully considered.

EXAMINER'S AMENDMENT

2. It is further recognized by the Examiner that in claim 2, line 1, the phrase "The method claimed in claim 2" should be corrected as "The method claimed in claim 1." An phone interview has been conducted with applicant and the Examiner is given the permission by applicant to perform examiner's amendment on claim 2 regarding this correction.

EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance:

The present application relates to providing a method of performing hand-off for a dormant mobile node from a serving zone to a target zone having a Packet Data Service Node (PDSN) and a Base Station Controller BSC with a Packet Control Function PCF, including the unique steps of:

"transmitting from the PDSN to the BSC/PCF in a registration reply, the registration reply comprising an indication requesting the BSC/PCF to set up a traffic channel between the BSC/PCF and the MN and for informing the BSC/PCF that the PDSN has packet data ready to be sent to the MN."

The closest prior art, Purnadi et al. (US Patent 6,708,031), discloses a handing off a dormant mobile node to a target zone having a RNC/PCF and a wireless gateway WGW (Packet Data Service Node PDSN) by sending a A-11 registration request message from RNC/PCF to WGW and transmitting a registration reply from the WGW to the BSC/PCF with a A-11 registration reply comprising an indication for setting up a PPP connection between BSC/PCF and the mobile station. However, Purnadi fails to anticipate or render obvious the above quoted limitations of the present application. This renders the claims allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kevin Mew whose telephone number is 571-272-3141. The examiner can normally be reached on 9:00 am - 5:30 pm.
